Details about Workshop

Subject	: Honing Research Publications Skills
How it will be useful to student	: Research is an important tool through which Excellence and Innovation in any field of education & technology can be achieved. Research is also directly related to quality of education, we impart in an educational Institution. Research in the past was concerned to premier institutes. The focus of the workshop is: how to carry out literature review for effective research; organization of research manuscript; preparation of manuscript; use of manuscript writing tools. Consequently, the workshop will include sessions like: publish, publicize or perish; effective communication and presentation of research; improving quality of research papers using ICT tools; role of Scopus in research and publication; scientometric analysis of publication and citation; role and use of statistics for writing and improving quality of research papers; what is plagiarism and how to avoid it?; managing reference using reference management tools.
Workshop contains	: <ul style="list-style-type: none">• Research Ethics and Academic Writings• Use of Reference Management Tools and Writing Research Report• Hands on Practice – Zotero Reference Management Tool• Foundation of Research Methodology and Planning of Research• Plagiarism and Quality Assessment• Indexing and Abstracting Databases: Scopus and Web of Science• Role of Open Educational Resources in Learning• Open Research Data Management
Branch	: All Engineering Branches
Year	: UG, PG Students, Research Scholars, Faculty members
Date	: 21-23 August, 2019

Coverage of Workshop

BVM Institute has organized three days National workshop on "*Honing Research publications Skills*". Workshop was conducted by four experts in three days. Main focus of the workshop was

- To develop research skill
- To make participant aware of different tools and learn techniques for research
- To learn proactive approaches to enhance research work do hands on practical.

In the first session students got familiar with Academic Writing: Balancing Language and Content and make use of academic writing and technical writing. The Second session was mainly focused on Understanding Research Ethics and Academic Integrity. He also explained about Good research practices were based on fundamental principles of research integrity and they guide researchers in their work as well as in their engagement with the practical, ethical and intellectual challenges inherent in research.

The Third session was on Ethics & Values by Dr Lalitha Poluru. She has explained how Ethical judgments focus more precisely on degrees of rightness and wrongness in human behavior. Also, she make aware of how Research ethics' refer to a complex set of values, standards and institutional schemes that help constitute and regulate scientific activity. In last session, she explained what is Plagiarism and types & reasons of it. She discussed about different Plagiarism Detection Software and their limitations. Also, there were shows Strategies for Prevention from plagiarism.

The Second day and the third days were on the Understanding Basics of Research and Scholarly Publications, Web of Science, Scopus Journals and Zotero for academic writing tool and reference management tools along with the hands on sessions by Dr Kruti Trivedi and Mr Malikaarjune Dora.

Overall student learnt the basics of search in to Web of Science journals, Scopus Journals etc. and gained basic knowledge of how to select area and topics of interest and how to manage the references and papers.
