On the 27th of February, 2024, an MOU and Sensitization program were arranged with the Edunet Foundation for the AI Saksham workshop and certification course for the pre-final students of BVM. A Cooperation Agreement has been signed between Birla Vishvakarma Mahavidyalaya (BVM) Engineering College and the Edunet Foundation, Bangalore.

Mr. Vivek Wandile, Senior Program Manager at the Edunet Foundation, graced the signing occasion and conducted a sensitization program for our students. 150+ students attended the orientation program along with faculty members. The AI Saksham Program is a CSR initiative jointly sponsored by Microsoft and TCS and implemented by the Edunet

Foundation. The program focuses on skilling students in the emerging technology domains of Artificial Intelligence and Cloud Computing. Aligning with the market trend and future job required skills, Edunet Foundation, with support from Microsoft Corporation India Pvt. Ltd. and Tata Consultancy Services., launched the AI-Saksham Program, for enabling, empowering, and accelerating young learners from underserved communities or backgrounds towards technology careers. The program aims to up skill young learners in key industry-relevant domains and high-demand areas - Artificial Intelligence, Cloud Computing, to create pathways toward the industry by supporting them with jobs and internships opportunities.

Prof (Dr.) Indrajit Patel, Principal of BVM, Prof (Dr.) Bhargav Goradiya, Head of EC, Prof (Dr.) Keyur Brahmhatt, Head of IT, and Dr. Ronak Vashi (EC), Prof. Dharmesh Patel (IT), along with Mr. Vivek Wandile and over 120 students attended the event. Our sincere thanks to Er. Bhikhubhai Patel, Chairman of CVM, for his guidance and motivation in fostering such collaborations for the benefit of students and society.

**Objectives of the MoU & Orientation Session:**

The program focuses on skilling the students on the emerging technology domains of Artificial Intelligence and Cloud Computing. There are no financial obligations as it is offered absolutely free for the students as well as the partner institute.

**Outcomes of the MoU & Orientation Session:**

- ❖ Hands-on experience: Gain practical experience through exercises, and real-world scenarios/case studies.
- ❖ Industry relevance: Stay up to date with current technologies, frameworks, and best practices.
- ❖ Portfolio development: Build a strong portfolio showcasing your ideas to solve the case studies and to demonstrate your skills to potential employers.
- ❖ Career support: Receive guidance on job search strategies and interview preparation to launch your software development career.
