

## BIRLA VISHVAKARMA MAHAVIDYALAYA

### Industry Institute Interaction (III) Cell

### **“Project Expo-2021”**

**NPIU**

National Project Implementation Unit

**Sponsored by**

**TEQIP-III, SSIP and BVM Alumni Association**

**SSIP**

**Event Date: Wednesday 9<sup>th</sup> June, 2021, at 5:00 pm**

Project Expo -2021 was organized on 09-06-2021 in total eight departments of BVM comprising of final year B.E. (Civil, Computer, Electrical, Electronics, Information Technology, Mechanical and Production Engineering) students.

## **Brief details about Project Expo 2021:**

- Our institute is organizing Project Expo since 2011-14 and this is our 9<sup>th</sup> project Expo. Unfortunately, due to Covid-19 pandemic we were unable to organize in the year 2020.
- Our final year students are working hard during their 7<sup>th</sup> and 8<sup>th</sup> Semester of final year on their chosen Projects and come out with good results, analysis, prototype or working models, technical publications and even up to start-up or patents.
- In this year total 224 Projects were carried out by students under different disciplines. Out of these 224 totals 127 are minor projects i.e., User Defined Projects (UDP) and 97 are Major projects i.e., Industry Defined Projects.
- After scrutinizing by scrutiny committee at department level total 148 projects were Showcased in competition under Project Expo 2021, out of these 77 are Minor projects and 71 are Major Projects.
- In Civil engineering 18 projects, Electrical Engineering 29 projects, Mechanical Engineering 20 projects, Production Engineering 10 projects, Computer Engineering 22 projects, Electronics Engineering 30 projects and Information & Technology 19 projects were showcased by students.
- **The toppers and winners' projects in each department and invited Jury members are:**
- **Civil:** Mass Construction using 3D Printing and its Analysis based on various criteria. Guided by Prof. A. N. Bhavsar and Students are: Doshi Mohit, Talajiya Sambhav, Sharma Parthkumar, and Dani Hetvi.
  - **Expert Jury:** 1 Er. Hiren Nanavati Consulting Civil Engineer & Valuer, Surat, 2 Er. Jitendrasinh J. Solanki Dy. Exe. Engineer, SSNNL, Gandhinagar.
- **Electrical:** Minor: Primary Controller for DC microgrid. Guided by Prof. Ajay M. Patel and students are: Rohit Kukadiya, Vishal Gothiwala and Harshal Patel.
  - Major: Multi-Parameter Assessment of Solar Radiation at BVM Engineering College. Guided Dr. R. P. Mehta and Mr. Chirag Patel (SteelHacks) and students are: Kedar Patel & Darshit K. Vyas.
  - **Expert Jury:** 1 Mr. Parag Kanjiya Instasine Pvt Ltd, Pune, 2 Mr. Gopal Gajjar PowerAnser Labs, IIT, Bombay
- **Mechanical:** Minor: Experimental Thermal Analysis of Phase Change Material (PCM) in Domestic Refrigerator. Guided by Dr. J P Hadiya and Students are: Anandkumar Patel, Harshit Bhalsod, Maulik Sojitra and Bhavya Kathiriya.
  - Major: To develop, analyse & implementation of friction stir welding for Aluminium alloy. Guided by Prof. H G Katariya & Mr. Santosh Katakar (L&T Defence, Hazira) and Students are: Smit Gandhi & Zeal Tandel.
  - **Expert Jury:** 1 Mr. Vrajlal B Senjaliya ELECON, 2 Mr. Vishal R. Patel Sr. Engineer, (Design & Development), EIMCO ELECON.
- **Production:** Design Analysis of Top Spin Ride Using Finite Element Method. Guided by Dr Hardik Beravala and Students are: Patel Jay & Bhavsar Yashkumar.
  - **Expert Jury:** Er. Ghanshyambhai Mistry Shree Jayanti Engineering Works, GIDC, Vitthal Udyognagar, Anand.
- **Computer:** Minor: Patel Photo Inpainting with GAN. Guided by Prof M J Joshi & Prof Pranay Patel, and Students are: Parth Narodia, Jay Koradiya and Bhavesh Varma.
  - Major: Society Management System. Guided by Prof Prashant Swadas, Dr H D Vasava & Ms. Pravina Upadhyay (Simform Solutions Pvt Ltd) and Student is Yagnesh Prajapati.
  - **Expert Jury:** 1 Mr. Viral K Shah Project Manager, 2 Mr. Dipen Kumar Parmar Manager, System Level Solution Pvt Ltd, 3 Mr. Nilesh Vaghela General Manager, Electromech.

- **Electronics:** Minor: ROBOTIC ARM. Guided by Dr. D.M.Patel & Dr.M.S.Holia and students are: Rumit Shah & Rutvik Valand.
  - Major: IOT Based Smart Industry. Guided by Prof Ajay Daiya and students are: Nariya Bhargav & Zalawadia Sharv.
  - **Expert Jury:** 1 Er. Bhaskar Trivedi Senior Director and Embedded Head, PerfectVIPs, 2 Er. Himanshu Ankleshwaria PCB Design Manager, SLS Ltd, Anand.
- **Information & Technology:** Minor: Image Upscaling guided by Dr. Zankhana Shah and students are: Kushal Tanna, Anany Munshi, Rutu Patel & Tanushree Pardhi.
  - Major: Live 3D Simulation for Demonstration of Security System. Guided by Dr. Keyur Brahmbhatt & Ms. Bhumika Sharma (Gayatri Hi-tech) and student is Ankit Kaushik.
  - **Expert Jury:** 1 Mr. Harshit Lalpura Founder, Hashmedia, 2 Mr. Jinesh Shah Technical Lead, TCS, 3 Mr. Nirav Patel Senior Software Engineer, Infocusp Ltd, 4 Mr. Harshit Shah Senior Software Engineer, MasterCard.
- **Chief Guest of the function:** **Er. Gautam Patel, BVM Alumni. Electrical 1978 batch and Businessman at USA.**

#### **Words by Er. Gautam Patel:**

Our Chief Guest have joined online to the program at early morning from New Jersey, USA.

He had Congratulated all winners and appreciated all Participant Students of Final year. He recalled the days of 1978, the year of his graduation and Principals & Faculties of those years. He advised the budding engineers to how to tackle the new world, new challenges and to reach new opportunities.

He shared the experience of him in technical world and business.

He congratulated the BVM Alumni for their support to student's activity. He remembered the celebration of Silver Jubilee, Golden Jubilee of Alma BVM. He assured to remain present to the Platinum Jubilee Celebration 2022-23.

## PRESIDENT OF THE FUNCTION

Dr. Indrajit Patel  
Principal, BVM

### **Presidential Remarks by Principal Dr. I. N. Patel**

Dr. I. N. Patel welcomed the Guest Shri Gautam Patel, other dignitaries and students. He has commented towards the diversity of projects under different departments and congratulated all winners. Principal insisted to the further outcome of the projects in form of Technical Publications in reputed journals and Start-up projects along with the filing of patents.

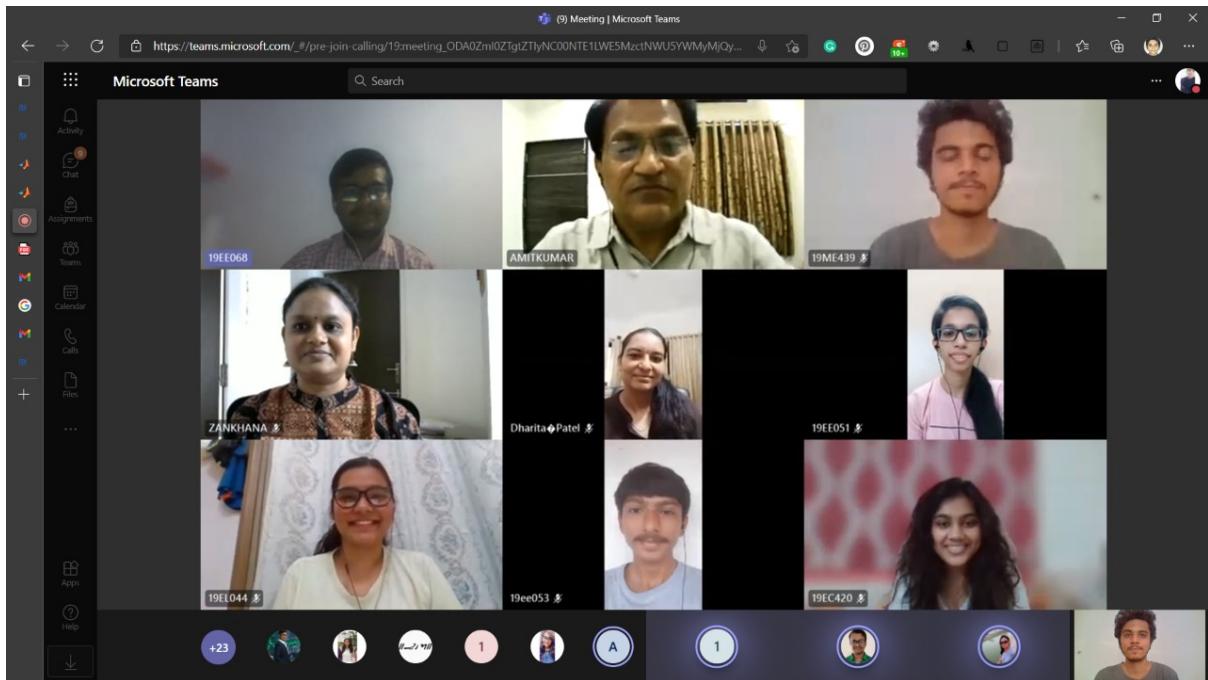

He announces the forth coming mega event at our institute, the Platinum Jubilee Celebration during 2022-23.

### **Project Expo Program details:**

- Program initiated with the Prayer to Lord Saraswathi Mata and virtual lamp-lighting.
- Dr. R. P. Mehta, HoD of Electrical Engineering, formally welcomed all dignitaries and introduced the eminent persons at the function.
- Prof. A. N. Bhavsar, Associate Dean III and Coordinator of the Project Expo-2021 brief the audience and guests about the Project Expo-2021 and the Felicitation Program.
- Dr. L. B. Zala, Dean III and Head of Civil Engineering Department thrown the spot light on Industry Institute Interaction Cell, its role in technical education and the various activities carried out through the year. He stressed the collaboration and support from the GIDC, V. U. Nagar and other Industries within the State.
- Prof. Pradeep Patel (Comfy), Hon. Secretary of BVM Alumni Association highlighted the activities of Alumni and its association with the Institute and students in their development. Infrastructure make-over and other outcomes.
- Project Expo Winners Announcement Part-I carried out by Prof. A. N. Bhavsar with presentation prepared by the students' team.
- Remarks given by the Chief Guest Er. Gautam Patel.
- Presidential remarks were given by the Principal Dr. I. N. Patel.
- Project Expo Winners Announcement Part-II carried out by Dr. Zankhna P. Shah with presentation prepared by the students' team.
- Release Ceremony of BVM Magazine "Vishvakarma" was done by the Principal, BVM.
- At the end of the function Dr. Akshay Pandya delivered the vote of thanks.

- The compering of the Felicitation Program was performed by the students' team, along with creating online platform, E-lamp lighting, and the presentation under the guidance of Prof. Dharita Patel, Dr. Zankhna Shah and Prof. A. N. Bhavsar.

**The glimpses of the Inauguration function are as follows:**

## The reports of Project Expo for various departments are as follows:

### 1) CIVIL & STRUCTURAL ENGINEERING DEPARTMENTS

**The two eminent experts were:**

- Er. Jitendrasinh Joravarsinh Solanki, Deputy Executive Engineer & PS to Chairman Sardar Sarovar Narmada Nigam Ltd, 1st Floor, Block 12, New Sachivalaya, Gandhinagar 382010 (On left below)

- Er. Hiren Nanavati, M.E. Civil, M. Val (Real Estate), Consulting Engineer and Valuaer, 401, Hiral Bldg , Opp J K Tower, Ring Road, Surat 395002. (On right above)

As per the Evaluation done by two eminent experts of the concerned area of Specialization.

### CIVIL PROJECT EXPO – 2021 WINNERS ARE:

Sr. No	ID No.	Name of students	Faculty Guide	Title of project
1 <sup>st</sup> Prize	17CE032	TALAJIYA SAMBHAV KIRTIKUMAR	Prof. A. N. Bhavsar	Mass Construction using 3D Printing and its Analysis based on various criteria.
	17CE034	SHARMA PARTHKUMAR DHIRAJBHAI		
	17CE037	DANI HETVI JAYESH		
	17CE049	TANDEL PRAKRUTIBAHEN KISHORBHAI		
	17CE060	DOSHI MOHIT MAYURBHAI		
2 <sup>nd</sup> Prize	17CE012	PARMAR ROMIT DINESHBHAI	Dr. S. V. Mevada	Earthquake Vibration Control Using Innovative Techniques.
	17CE035	SOLANKI CHIRAGKUMAR RAMANBHAI		
	17CE041	MAHESWARI CHIRAGKUMAR JUGALBHAI		
	17CE050	CHAUHAN ARPITKUMAR CHETANBHAI		
	17CE059	CHAUHAN KINJALBEN VIRABHAI		

3 <sup>rd</sup> Prize	17CE017	<b>CHOVATIYA RUSHIK A.</b>	Prof. Jagruti P. Shah & Prof. A. N. Bhavsar	Fire safety assessment and safety measures in educational building: Case study of BVM.
	17CE100	<b>BHAD BHARGAV B.</b>		
	17CE107	<b>UPADHYAY ASHUTOSH S.</b>		
	17CE124	<b>PATEL HEMANG N.</b>		
	17CE125	<b>GOHIL DILAN JITESH</b>		
3 <sup>rd</sup> Prize	17CE008	<b>KORAT NIYATI MUKESHBHAI</b>	Prof. A. N. Desai	Analysis of Soft-Story Effect for multi-storied buildings during earthquakes.
	17CE015	<b>SAWANT SAGAR MUKUNDRAV</b>		
	17CE020	<b>KHARODAWALA ABDULKADIR K.</b>		
	17CE024	<b>PATEL PRAHARSH GANESHBHAI</b>		
	17CE074	<b>KATHIRIYA PARIGNA MANOJBHAI</b>		

The prizes were awarded for each category: Major and Minor Project.

An amount of Rs. 5000/- to Rank 1 as first prize, Rs. 3000/- to Rank 2 as second prize and Rs. 2000/- to Rank 3 as third prize were awarded in each category by BVM Alumni Association.

**The brief details of the 'Winners Project' are displayed through their 'Project Posters'.**

**3rd Prize winner:  
Fire safety assessment and safety  
measures in educational building:  
Case study of BVM.**

**3rd Prize winner:  
Analysis of Soft-Story Effect for  
multi-storied buildings during  
Earthquakes.**

## 2) Computer Engineering Department

### o Industry Experts

- **Nilesh Vaghela**: (Founder at ElectroMech, AWS Community Hero):
  - More than 20 Years of Experience, Resourceful company founder with open-source Ethic, successfully completed lots of Linux and aws cloud projects with services includes Zimbra Enterprise Mail Solution, Linuxfirewall. Ipsec / open VPN, Samba 4 as domain controller with win group policies. Enterprise backup solution, Apache / tomcat web server LAMP plateform, Red Hat cluster suite, Open ldap integration for various services/ custome schema / object class / attributes xrdp terminal service.
- **Dipenkumar Parmar** (Manager: Software Level Solution Pvt Ltd): Certified Scrum Product Owner and 10+ Years of best industry experience with strong FreeRTOS & Linux OS knowledge enabling Secure Nebulae IoT Framework ([www.nebulae.io](http://www.nebulae.io)) for various E2E smart use-cases with vast RF(6LoWPAN+Zigbee+Wi-Fi/non-RF(G3PLC) Sensors Network via Industrial/non-industrial Gateways to Cloud middleware. Certified Scrum Product Owner by Scrum Alliance. Leading Nebulae IoT Framework ([www.nebulae.io](http://www.nebulae.io)) team with various NebuLink devices. Leading FOTA (Firmware Over the Air) Framework development for IoT devices. Lead Service Team for UK GBCS Smart Metering Implementation Programme's major client for their devices to provide OS Stability and RF expert Services which expects the life of ~15 years with Agile way project management. Lead Product Team for TSCH (Training Simulator Communications Hub), this is again used by UK GBCS Smart Metering Implementation Programme to train the Installers for commissioning various Smart Meters/equipment.
- **Viral Shah**: (Project Manager at RKIT Software Pvt. Ltd): Experienced Analyst with a demonstrated history of working in the computer software industry. Skilled in Computer Science, PHP, C++, Android, and Mobile Applications. Strong engineering professional with a Master of Computer Applications (MCA) focused in Mobile Computing (Android,iPhone),Maths and Embedded Systems,C++,C,PHP,.net from R.K college of Engineering & Technology.

### Scrutiny Committee:

Dr Mayur Vegad, Prof. P B Swadas, Dr. N M Patel, Prof. Mosin Hasan

### Process of Project Expo

1. All the fourth-year students of the BVM engineering college were instructed to make poster, video and presentation for the online project expo.
2. For Minor Project (Project II: CP442) out of 15 projects 7 projects were scrutinize by the expert committee at department level.
3. For Major Project (Full Semester External Project: CP446) out of 33 projects 15 were scrutinize by the expert committee at department level.
4. These scrutinized projects were further given to industry experts for final evaluation. Projects were evaluated based on 9 parameters like project usefulness, completeness, implementation, impact on society etc.
5. First, second and third rank winners are selected based on industry experts' marks out of 100.

## **Project Expo Winners - Major Project**

### **1<sup>st</sup>: Society Management System**

Daily life in city areas has important things to deal with Society Management. Our day to day needs such as Water supply, Electricity, Security and many more things which directly or indirectly plays the vital role in residential life, comes under Society Management. In most of the cases, Society management practices a traditional way of communication. This certainly has some limitations and disadvantages. Daily notices, monthly meetings, cultural events, miscellaneous contacts(services) for daily needs, security alerts, high priority communication and many others which may not be conveyed properly in current scenario as most of the things are getting handled manually. It lacks transparency. To overcome the problems occurring due to this time lagging manual system, an automated system needs to be developed to reduce the human efforts.

### **2<sup>nd</sup>: TENABLE APP FOR QRADAR**

Finding out the threat is very important for achieving network security. Aim of the project is to develop a QRadar application which is integration between QRadar and Tenable core application to provide visibility of all the data centers protected by tenable server using dashboard. So that analyst can better understand all the log events, security threats, investigations and vulnerabilities in Tenable app for QRadar dashboard and betterly analyze network traffic with the help of QRadar functionalities on log activity tab and different filters on dashboard.

### **3<sup>rd</sup>: Notes Marketplace**

The developed system is a project as a solution for the problem running from ancient era where world has witnessed large portion of ancient wisdom in form of hand written manuscripts sank into oblivion. The same problem is still here where students gather knowledge and make study notes which with time degrades and become dust. It also suffer problem of being available to only one user at a time. This project's main goal is to let students, professors and other educational personnel collaborate via making the notes they have prepared, available to other user in form of digital documents which are free from misery of time and availability. The project also make sure to compensate creators for their efforts by letting them choose whether to upload notes as paid or free.

## **Project Expo Winners - Minor Project**

### **1<sup>st</sup>: Photo Inpainting with GAN**

Inpainting, the technique of reconstructing lost or deteriorated parts is an ancient art. It has numerous applications from the restoration of damaged portions to removing an object from the image. The word "Inpaint" means to fill the gap in the image. In the Traditional form of Inpainting, artists used to fill the gap in pixels with pixels that are the same as, or similar to, neighboring pixels. This process was time-consuming, and they fail when the image has huge gaps or a significant amount of missing data. In this project, we have used the Deep Learning-based Convolution method for digital inpainting.

### **2<sup>nd</sup>: Automatic Form Filler (using Handwritten OCR)**

To automatically digitize documents and extract the information to organize and categorize the information in a convenient manner. To avoid the tedious task of manually entering the data of handwritten filled form in the portal. To prevent human errors. using Deep Learning and MNIST dataset we are automatically detecting proper form filling forms sections.

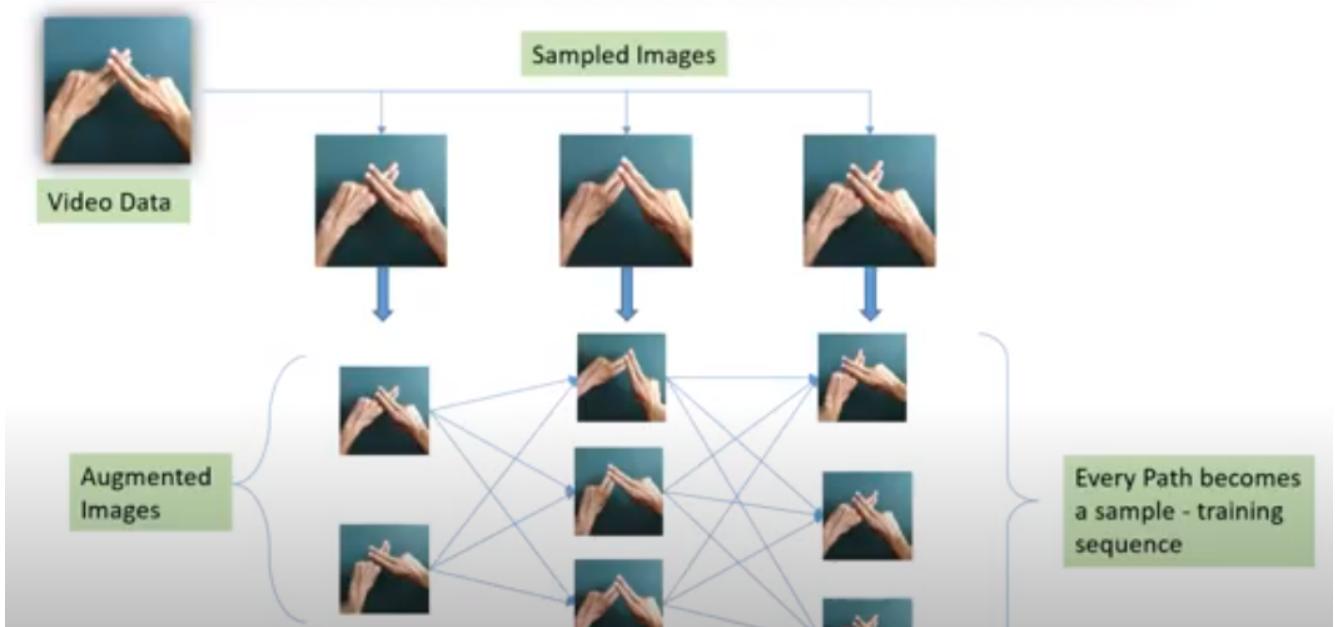

### **3<sup>rd</sup>: Indian Sign Language Recognition**

Sign Recognition models are developed to help people who communicate in Sign Language to be able to communicate in other literary languages such as English or Irish through mechanism of Machine learning like KNN and Deep Learning Models. In this work we introduce a methodology to translate Indian Sign Language's (ISL) words to English words using Convolutional and Sequence Models. We also illustrate the dataset development for recognized word space and also depict the results achieved on recognizing days of the week in ISL with further insights.

### 3) Electrical Engineering Department

PROJECT EXPO is an event organized every year for the Final Year students of all Engineering branches at BVM, wherein the aim and objective is to provide an opportunity to the students and their faculty guides to have an interaction with the eminent industry experts by showcasing the project carried out. Industry Institute Interaction is the need of the hour and such activities provide a huge boost to the same. Industry experts examine the projects and provide their valuable suggestion pointing to the appropriate direction as per the industry demands.

BVM Engineering College had organized Project Expo 2021 event during **23<sup>rd</sup> May 2021 to 30<sup>th</sup> May, 2021**. In Electrical Department 28 project groups successfully demonstrated their projects in the form of Video presentations and Posters.

The two eminent experts were:

- Mr. Parag Kanjiya, Instasine Pvt Ltd, Thane, Mumbai
- Mr. Gopal Gajjar, PowerAnser Labs, IIT, Bombay.

## **EVALUATION PROCESS:**

A scrutiny committee consisting of Dr. R. P. Mehta, Head, EE dept. and Prof. Dharita Patel, Project coordinator decided to give an equal chance to each and every group to demonstrate their project in front of the industry experts. Hence 28 project groups had successfully provided a video and poster of their respective projects which were later on collected and provided to the above mentioned two eminent experts for evaluation.

12 External Projects: EE46 (Major) and 16 Internal Projects: EE441 (Minor) were demonstrated to eminent industry experts.

The experts were given a time of almost 4-5 days for examining the projects at their convenience so as to have a fair evaluation. The examiners evaluated the projects based on the following criteria:

A Question Answer session was also organized on **28th May 2021 (Friday) during 11:00 am to 04:00 pm** to enable the experts to inquire about the respective projects and the students too responded effectively during the session.

As per the Evaluation done by the two eminent experts of the concerned area of specialization, winners of this competition from Electrical Engineering Department are as follows:

### Minor Project

Sr. No	ID No.	Name of students	Faculty Guide	Title of project
1st Prize	17EE003	Rohit Bharatbhai Kukadiya	Prof. Ajay M. Patel	Primary Controller for DC microgrid
	17EE010	Vishal Ashokbhai Gothiwala		
	17EE038	Harshal Kirankumar Patel		
2nd Prize	17EE058	Lovlesh Maheshkumar Roy	Prof. Dipan A. Parikh/ Prof. Swapnil Arya	Remote monitoring and control of VFD fed three phase induciton motor with PLC
	17EE061	Kenil DilipKumar Brahmabhatt		
	17EE201	Vyomesh D. Baria		
3rd Prize	17EE055	Bhavesh Harishbhai Samani	Dr. R. P. Mehta & Prof. J. C. Baria	AI and machine learning application to electrical engineering
	17EE057	Yadav jagdish Deshalbhai		

## Major Project

Sr. No	ID No.	Name of students	Faculty Guide	Title of project	Industry Guide	Name of Industry
1st Prize	17EE023	Darshit Vyas	Dr. R. P. Mehta	Multi-Parameter Assessment of Solar Radiation at BVM Engineering College	Mr. Chintan Pandya	SteelHacks Ltd, Vitthal Udyognagar
	17EE024	Kedar Patel				
2nd Prize	17EE011	Nirajkumar Rameshchandra Tiwari	Prof. G. K. Sharma	Fabrication of test setup to measure cogging torque of PMSM motor and BLDC motor	Mr. Sanjay Mahagaokar	Rotomotive Powerdrives India Ltd., Vitthal Udyognagar
	17EE018	Maharshi Rakeshkumar Shah				
3rd Prize	17EE008	Anurag Manish Abhyankar	Prof. Swarnil Arya	Software design for Genesis test system	Mr. Sanjay Mahagaokar	Rotomotive Powerdrives India Ltd., Vitthal Udyognagar
	17EE004	Dhruvanshu Sanjaykumar Parekh				
	17EE063	Urvesh Rameshbhai Bhagat	Prof. Dharita K. Patel	IoT based Smart Energy meter reading and theft detection using WiFi Technology.	Dr. Vitthal Kamat	Baroda Electric Meters Ltd., Vitthal Udyognagar
	18EE377	Sonali Thakur				
	17EE001	Pragna Devendrabhai Rathava				

The prizes were awarded for each category: Major and Minor Project.

An amount of Rs. 5000/- to Rank 1 as first prize, Rs. 3000/- to Rank 2 as second prize and Rs. 2000/- to Rank 3 as third prize were awarded in each category by BVM Alumni Association.

### 4) Electronics Engineering Department

BVM Engineering College has organised Virtual Project Expo-2021 event during **26<sup>th</sup> May, 2021 to 30<sup>th</sup> May, 2021** for final year students under the guidance of Dr. L B Zala III cell Dean and Prof. Amit Bhavsar coordinator project expo 2021. In Electronics Engineering Department total 44 projects done in which 30 are IDP (Major) projects and 14 are UDP (Minor) projects. We use Project poster and project video in project expo 2021. We have selected 15 IDP project and 6 UDP projects for evaluation under the guidance of Dr. Tanmay Pawar HOD, EL. Our industry experts are Mr. Bhaskar Trivedi from PerfectVIPs, Ahmadabad and Mr. Himanshu Ankeshvaria from SLS, New Vallabh Vidhyanagar. They selected below best three project group students of project Expo 2021. The winners of the said expo from Electronics Engineering Department are as follows:

### Minor Project

Sr. No	ID No.	Name of students	Faculty Guide	Title of project
1 <sup>st</sup> Prize	17EL017	Rumit H Shah	Dr. D.M.Patel Dr.M.S.Holia	ROBOTIC ARM
	17EL005	Rutvik Valand		
2 <sup>nd</sup> Prize	17EL012	Anil Rathod	Dr. J.M.Rathod Prof. P.H. Panchal	Microstrip patch Antenna design
	17EL016	Abidali Ansari		
3 <sup>rd</sup> Prize	17EL037	Ravindra Bhoi	Dr. D.L.Vala Prof.M.M. Khambalkar	Autonomous Fire fighting Robot
	17EL052	Ronak Ojha		

### Major Project

Sr. No	ID No.	Name of students	Faculty Guide	Title of project
1 <sup>st</sup> Prize	17EL003	NARIYA BHARGAV	Prof Ajay Daiya	IOT Based Smart Industry
	17EL010	ZALAWADIA SHARVIL		
2 <sup>nd</sup> Prize	17EL004	Prachi Jain	Dr.M.S. Holia	Conveyor Belt with a robotic arm
	17EL007	Ruchi Patel		
	17EL067	Anjali Nayar		
3 <sup>rd</sup> Prize	17EL018	Darshana	Prof. Chetan Jaiswal	Wireless Modbus Communication Model with Master-Slave devices
	17EL035	Rishabh Mishra		

### 5) Information Technology Department:

BVM Engineering College had organized Project Expo'21 event during **26<sup>th</sup> May, 2021 to 30<sup>th</sup> May, 2021**.

Total 35 Projects (Minor Projects -10 and Major Projects 25) of Information technology department had participated in Project Expo'21. Students were invited to submit the poster as well as short video for explanation to participate in event. Department PEC (Project Evaluation Committee) scrutinized and identified best total 19 Projects (Minor Projects -9 and Major Projects -10) to be further evaluated by Industrial experts. The Department Project Scrutiny committee was comprised of:

- Dr. Zankhana Shah, Project Coordinator
- Prof. Vishal Polara, Project Coordinator
- Prof. Prachi Shah, Member

The scrutinized projects were shared with four Industry Experts (two for major and two for minor projects) to evaluate the project and to decide the prize winners. Following Industry Experts rendered their services as Jury:

- Mr. Harshit Shah, Senior Software Engineer, MasterCard
- Mr. Jinesh Shah, Technical Lead, TCS
- Mr. Nirav Patel, Senior Software Engineer, InfoCusp
- Mr. Harshit Lalpura, CTO, Hashmedia

All 10 projects were evaluated as per criteria/rubrics for 100 points provided by Project Expo'21 organizing committee. The rank of project is given as per evaluation provided by experts.

**The winners of the Project expo are as follows:**

**Major Project**

Sr. No	ID No.	Name of students	Faculty Guide	Title of project
1 <sup>st</sup> Prize	17IT427	Ankit Kaushik	Dr. Keyur Brahmbhatt	Live 3D Simulation for Demonstration of Security System
2 <sup>nd</sup> Prize	17IT410	Nishit Jariwala	Prof. Vishal Polara	Price Estimator for vehicles
	17IT436	Darsh Patel		
3 <sup>rd</sup> Prize	17IT407	Parth Shah	Dr. Zankhana Shah	The Decentralized crowd funding portal for start-ups, entrepreneurs, businesses & investors

**Minor Project**

Sr. No	ID No.	Name of students	Faculty Guide	Title of project
1 <sup>st</sup> Prize	17IT421	Kushal Tanna	Dr. Zankhana Shah	Image Upscaling
	17IT443	Anany Munshi		
	17IT448	Rutu Patel		
	17IT753	Tanushree Pardhi		
2 <sup>nd</sup> Prize	17IT425	Priyal Patel	Dr. Keyur Brahmbhatt	Person identification using voice
	17IT442	Darshan Tripathi		
	17IT449	Rutik Makwana		
	17IT453	Raviraj Chavda		
3 <sup>rd</sup> Prize	17IT405	Keval Padsumbiya	Prof. Prachi Shah	Crowd Computing
	17IT409	Maulik Beladiya		
	17IT411	Gopal Sakhwala		
	17IT469	Neel Savani		

## Posters of Winner Projects in Major Project Category

**BIRLA VISHVAKARMA MAHAVIDYALAYA, VALLABH VIDYANAGAR**

**LIVE 3D SIMULATION FOR DEMONSTRATION OF SECURITY SYSTEM**

**DESCRIPTION**

IT IS A VIRTUAL REALITY APPLICATION, USED FOR THE DEMONSTRATION OF SECURITY SYSTEM BY AN AGENCY WHICH PROVIDES CORPORATE & HOME SECURITY SYSTEMS

**G-20 ( IT DEPT )**

**ANKIT KAUSHIK (17IT427)**

**APPLICATIONS**

PITCHING THE CLIENT  
INCREASING THE SALES  
AUDITING THE SITE  
FINDING THE BEST COMBINATION OF THE SECURITY SYSTEM

## Goal

Calculate a fair market value of the car on basis of its status and its condition.

We are the Team of Price Makers - [ValueWings](#)

## Motivation

Ratio of used car vehicle has been rapidly increasing.

According to Research 70% Users are not satisfied with what they get from dealer.

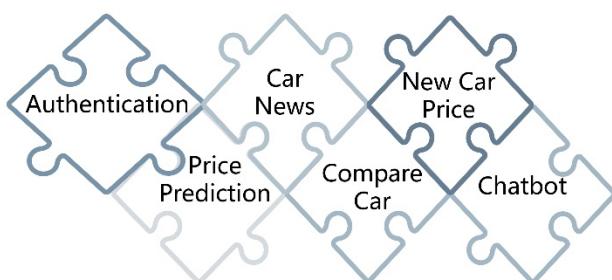

Buyer/Seller

Car Dealer

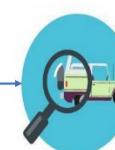

## Modules

## Flow

User

Want to Check Price

Come to ValueWings

Select Parameters

## Project By

Nishit Jariwala – 17IT410

Darsh Patel – 17IT436

Faculty Guide – Prof. Vishal Polara

Generates Price Certificate

Provides Car Price in four parameters

Algorithm Calculates the Price

# IMAGE UPSCALING

**TECHNOLOGIES USED**

OpenCV

THIS IS A VISUAL DEMONSTRATION OF HOW NEURAL NETWORK UPSALES THE IMAGE

**OVERVIEW**

THE PROJECT AIMS TO CREATE HIGH RESOLUTION IMAGES THROUGH LOWER RESOLUTION IMAGES USING DEEP LEARNING MODEL

**GROUP: G2**  
 TANUSHREE PARDHI, KUSHAL TANNA, ANANY MUNSHI, RUTU PATEL

**CROWD COMPUTING USING CNN**  
 Subject: Minor Project - II (IT 442)  
 INFORMATION AND TECHNOLOGY DEPARTMENT  
 BIRLA VISHVAKARMA MAHAVIDYALAYA ENGINEERING COLLEGE (An Autonomous Institution)

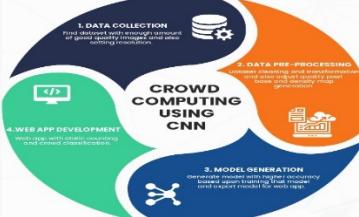

**Abstract**

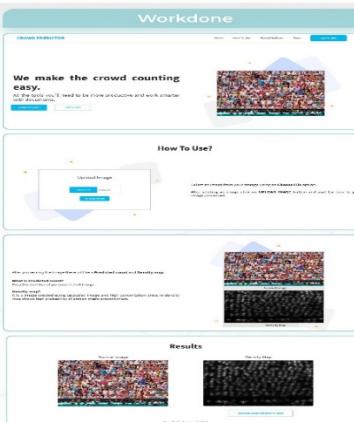

The proposed system is developed for situations where emergency evacuations are required such as fire outbreaks, calamitous events, etc. and making informed decisions on the basis of the available resources such as food, water, detecting congestion, etc.

This poster presents the development of crowd counting model using CNN. This model has wide feasibility like image size and colour and resolutions and it is also work with great accuracy.

**OUR APPROACH**

**Workdone**

**Applications**

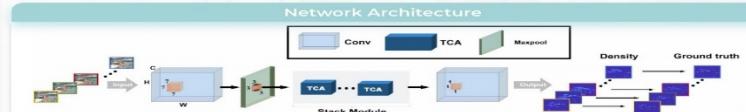

**Conclusion**

The proposed system performs admirably in situations where manual counting is simply not possible. Deep learning also enables the system to perform in versatile environments and continuously learn from new inputs.

**Future Work**

The project is flexible in terms of expansion and can be expanded to trace or study the movement of the crowds which could be helpful in managing riots, rallies etc.

**Network Architecture**

**Team**

Guided By  
 Prof. Prachi Shah  
 Made By  
 Keval Padsumbilya(17IT405)  
 Gopal Sakhwala(17IT411)  
 Neel Savani(17IT469)  
 Maulik Beladiya(17IT409)

# Person Identification Using Voice

Your voice is your saviour

## OBJECTIVE

To unlock an app using your voice.

## MODULES

Voice Sample Collection  
Feature Extraction  
Voice Training  
Voice Testing  
App Development

## OUTCOME

Cost Effective  
Contactless  
Security  
Accessibility

All Winner projects and students were felicitated at Project Expo Winner Felicitation Program on 9<sup>th</sup> June, 2021 at 5:00 pm online on MS Teams platform. Er. Gautam Patel, 1978 Electrical graduate of BVM was the chief guest of the function. Winning projects were given cash prize by BVM Alumni Association.

## 6) Mechanical Engineering Department:

Our college has organised Project Expo'21 event during **26<sup>th</sup> May, 2021 to 30<sup>th</sup> May, 2021**. The winners of the said expo from Department of Mechanical Engineering are as follows:

### Minor Project

Sr. No	ID No.	Name of students	Faculty Guide	Title of project
1 <sup>st</sup> Prize	17ME038	Anandkumar Patel	Dr. J P Hadiya	Experimental Thermal Analysis of Phase Change Material (PCM) in Domestic Refrigerator
	17ME027	Harshit D Bhalod		
	17ME403	Maulik D Sojitra		
	17ME408	Bhavya P Kathiriya		
2 <sup>nd</sup> Prize	17ME071	Hiral Chaudhari	Prof. A M Thakkar	Design and Analysis of car parking mechanism with 180 degree wheel rotation
	17ME002	Divyesh Rana		
	17ME019	Yash Savaliya		
	17ME055	Abhishek Shingala		
3 <sup>rd</sup> Prize	17ME068	Deven H Patel	Prof. H G Katariya	Manipulation of fluid flow inside tubes of Heat Exchanger
	17ME053	Yogesh Hinsu		
	17ME007	Zeel Trivedi		

### Major Project

Sr. No	ID No.	Name of students	Faculty Guide	Title of project
1 <sup>st</sup> Prize	17ME076	Smit Gandhi	Prof. H G Katariya	To develop, analyze & implementation of friction stir welding for Aluminium alloy AA7004
	17ME035	Zeal Tandel		
2 <sup>nd</sup> Prize	17ME001	Nishit Jariwala	Dr. V J Patel & Prof S P Joshi	Analysis of Energy losses in Fluid Coupling
	17ME026	Jay Solanki		
3 <sup>rd</sup> Prize	17ME410	Dhwanit R Tamboli	Prof. M J Zinzuwadia	Catalytic/ Non-catalytic oxidative fast pyrolysis of agro-residues and system evaluation
	18ME315	Krishna T Chudasama		

## 7) Production Engineering Department:

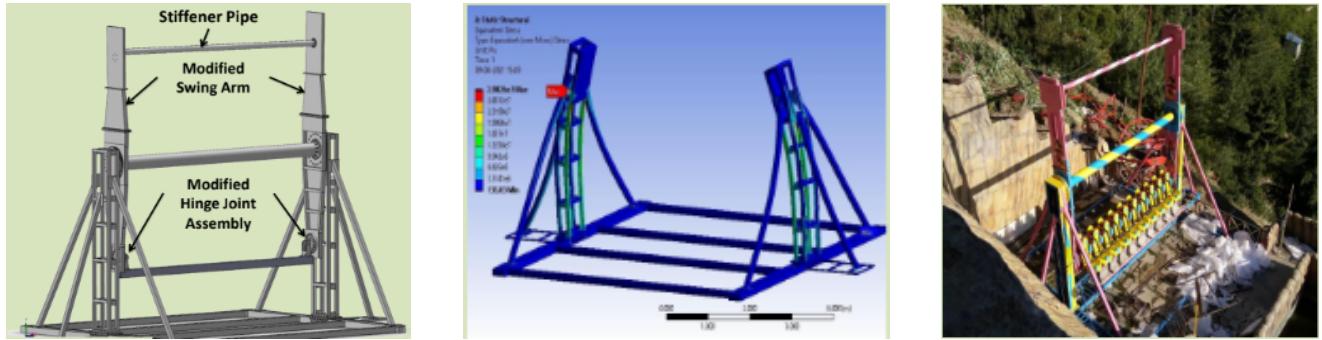

An Industry Institute Interaction cell, BVM Engineering College with the support of all the faculty members and students of the College, has organized a Virtual Project Expo – 2021 for B. Tech. final year students. The objective of this event was to showcase the achievements in their Industry Defined Projects or User Defined Projects (IDP/UDP) in front of Industrial experts.

There is a total of forty Final Year B.Tech. Production Engineering students of the department had participated in the event. They showcased their 13 major projects in the form of video presentations and digital posters. The department committee including the head of the department and department project coordinator scrutinized the projects at department level and selected the best 10 projects. BVM alumni, Er. Ghansyam Mistry the owner of Shree Jayanti Engineering Works at GIDC, Vitthal Udyognagar, Anand was appointed as an industry expert to evaluate these projects. The video presentations and digital posters of selected projects were shared with industry expert through Google drive. Among the category of Major Projects, 3 projects were selected as the best projects. The details of the best three projects are mentioned in the table below.

SR. NO	ID NO.	NAME	FACULTY GUIDE	TITLE OF PROJECT
1 <sup>ST</sup> PRIZE	18PE309	PATEL JAY INDRAVADANBHAI	DR HARDIK BERAVALA	DESIGN ANALYSIS OF TOP SPIN RIDE USING FINITE ELEMENT METHOD
	18PE305	BHANDARKAR PARTH SANJAYBHAI		
	17PE017	BHAVSAR YASHKUMAR JAGDISHCHANDRA		
2 <sup>ND</sup> PRIZE	17PE012	PRAJAPATI PIYUSH JAGDISHBHAI	DR HARDIK BERAVALA	DEVELOPMENT OF POLYMER BASED TOPOLOGICALLY ORDERED OPEN-CELL POROUS FOAM USING 3D PRINTING
	17PE013	MALAV PATEL		
	17PE011	RATHOD CHIRAGKUMAR RAMUBHAI		
3 <sup>RD</sup> PRIZE	18PE303	DOMADIYA JAIMIN PRADIPBHAI	PROF P D CHAUHAN	IMPLEMENTATION OF A CONVEYOR SYSTEM IN THE PACKAGING DEPARTMENT IN THE F-60 DRYNIG PLANT
	17PE028	VAISHNAV JASHMIN KUMAR BHARATBHAI		
	17PE404	VORA RUSHABH HIRENKUMAR		

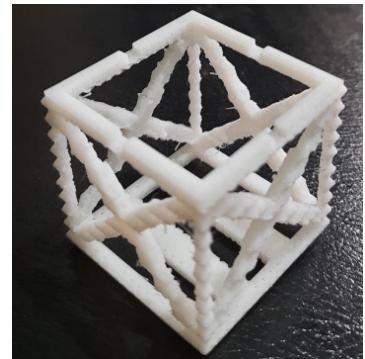

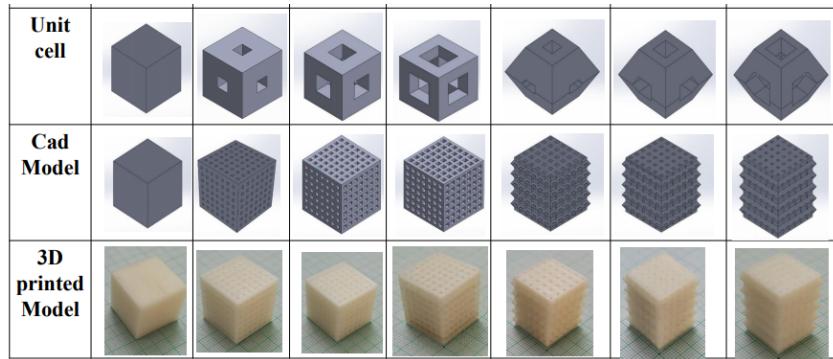

The prizes of Rs 5000 for each 1st rank, Rs 3000 for each 2nd rank, and Rs 2000 for each 3rd rank winners funded from BVM Alumni Association.

### Glimpse of the Event:

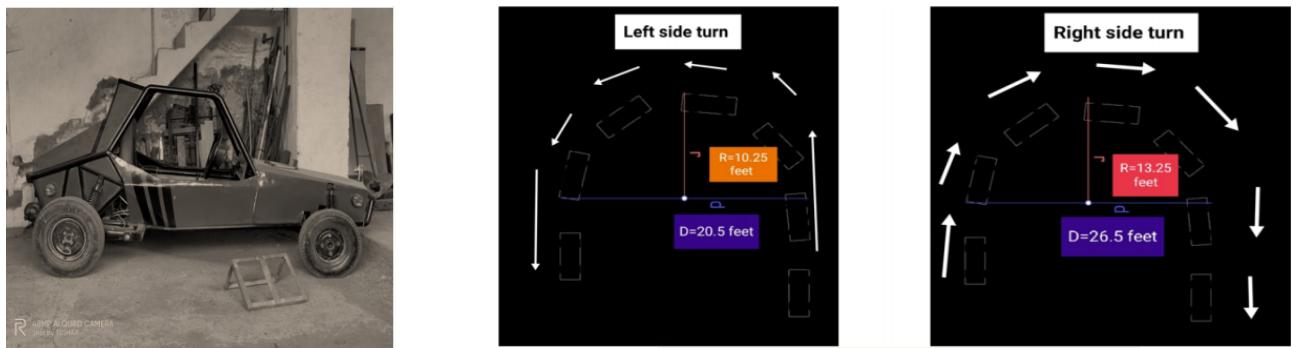

**Fig. 1 Modeling, analysis and fabrication of Top spin ride use in the amusement park.**

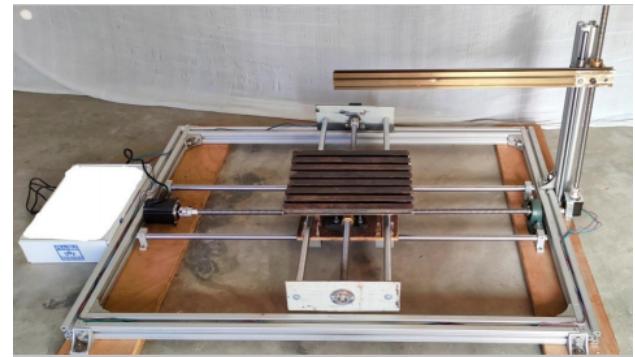

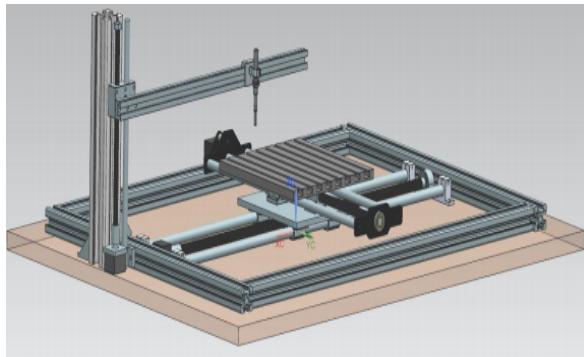

(The project was done by the student's group Patel Jay Indravadanbhai (18PE309), Bhandarkar Parth Sanjaybhai (18PE305) and Bhavsar Yashkumar Jagdishchandra (17PE017))

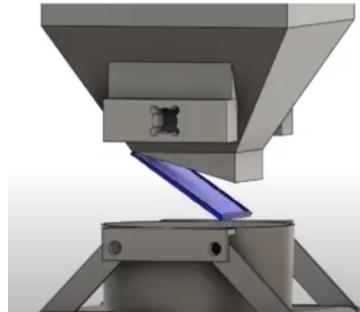

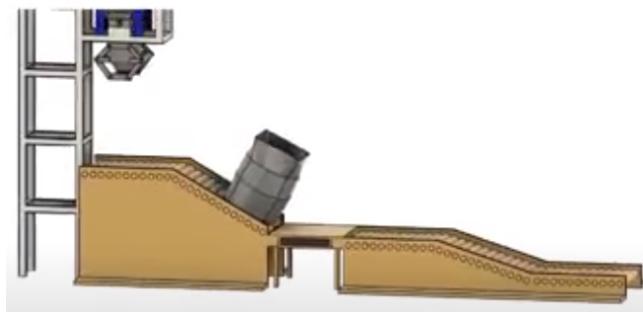

**Fig. 2 3D printed micro-satellite frame using polymer based topologically ordered open-cell porous foam** (The project was done by the student's group Prajapati Piyush Jagdishbhai (17PE012), Malav Patel (17PE013) and Rathod Chiragkumar Ramubhai (17PE011))

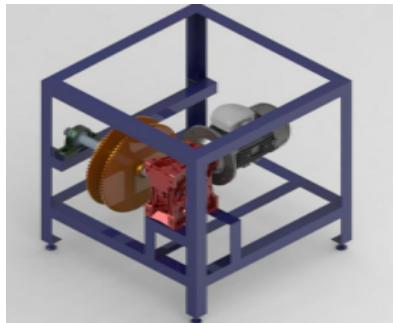

**Fig. 3 Pre-assembled ATV made from scrap and its tie rod adjustment for correction in turning radius** (The project was done by the student's group Tushar Rathod (17PE003), Keyurkumar Panchal (17PE407), Chintankumar Ahir (17PE415) and Jignesh Makwana (16PE413))

**Fig. 4 Modeling and fabrication of fixture for automatic torch movement in arc welding**  
(The project was done by the student's group Rushi Joshi (18PE307), Akshar Patel (18PE302) and Mayank Sathiya (18PE301))

**Fig. 5 Design of a filling system of dry powder in plastic bags and conveyor system for the f-60 drying plant**  
(The project was done by the student's group Jashmin Vaishnav (17PE028), Rushabh Vora (17PE404) and Jaimin Domadiya (18PE303))

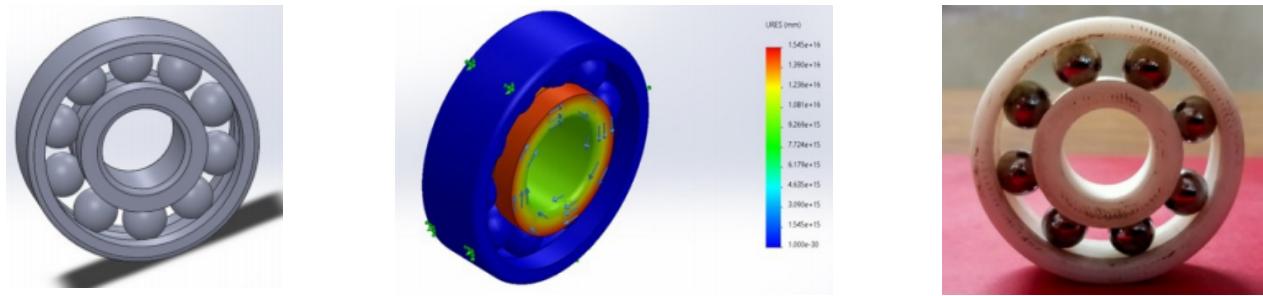

**Fig. 6 Design and development of deshelling machine to obtain coconut fruit.**  
(The project was done by the student's group Gandhi Shilp (17PE416), Kashyap Thacker (17PE418) Pritul Makadia (17PE421))

**Fig. 7 Thermal simulation and processing of gears using investment casting and 3D printing technology**

(The project was done by the student's group Patel Roshankumar Prakashbhai (17PE002), Makani Ram (17PE413) and Talaviya Tejendrakumar Nareshbhai (17PE405))

**Fig. 8 Modeling, analysis and fabrication of polymer-ceramic composite 3D printed Ball Bearing**

(The project was done by the student's group Saurabh Kumar Panday (17PE007), Nikhil Sureshbhai Patil (17PE015) and Shubham Tribhovan Chavda (17PE419))

# બીપીએમમાં પ્રોજેક્ટ એક્ષ્યોના વિજેતા વિદ્યાર્થીઓનો ઇનામ વિતરણ સમારોહ યોજાયો

અણંદ, તા. ૨૫  
ઈન્ડસ્ટ્રી ઇન્સ્ટિટ્યુટ

### Industry Institute Interaction (III) Cell

### Project Expo -2019

**NPIU**

National Project Implementation Unit

**Sponsored by**

**SSIP**

TEQIP-III, SSIP and BVM Alumni Association

**Event Date: 08/04/2019**

Project Expo -2019 was organized on 08-04-2018 in total eight departments of BVM comprising of final year B.E. (Civil, Computer, Electrical, Electronics, Electronics and Communication, Information Technology, Mechanical and Production Engineering) students.

**The inauguration and schedule of the event for the whole day is mentioned as below.**

<i>Programme Schedule</i>	
Timings	Programme
08:30 - 09:45 AM	<b>Student Registration and Breakfast</b> Venue: South quadrangle, Nr Auditorium
09:45 - 10:15 AM	<b>Inaugural &amp; Interactive session with Chief Guest and Industry experts, Principal, Faculties and III Cell Members.</b> Venue: BVM Auditorium
10:15 - 01:00 PM	<p><b>Session-I : Evaluation Round</b></p> <p>Evaluation of Projects: At Each Respective Department by Industry at the departmental level. Best Three Projects to be selected. Viewing of projects by all the guests, college faculty and students from 1st year to 3rd year.</p>
01:00 - 01:30 PM	<p><b>Session-2 : Result</b></p> <p>Best Three Projects from each department. Brief feedback on Projects, exhibition and III activities by experts and guests.</p>
01:30 - 02:30 PM	<b>Lunch Break</b>
03:00 - 05:00 PM	<p><b>Session -3: Industry Consultative Committee (ICC)Meet</b></p> <p>with Industry experts and faculty at the departmental level</p>

### **The excerpts of the speech by the dignitaries on the dais is as follows:**

**Welcome Address:** Principal Dr. I. N. Patel welcomed the dignitaries, jury members from Industry for Project Expo-2019, Industrial experts for Industry Consultative Committee Departmental Meet, the faculty members and the students. He conveyed to the students that they should continue further development of their Project through the financial support from SSIP at BVM. He explained the role of TEQIP-III, SSIP, BVM alumni Association in organizing of this Project Expo.

**Speech by Guest of Honour:** Shri Harshad Mehta, President, Vithal Udyognagar Industries association (VUIA) explained his own journey from college days and weak economic background to becoming entrepreneur and climbing the ladder of success in it through hard work and struggle. He explained the importance of projects in developing the innovation and entrepreneurship skills.

**Speech by Chief Guest:** Dr. Harshul Parekh, MD, Facile Maven Pvt. Ltd., Surat expressed thanks for invitation. He remembered his days of study from 1984 to 1988 at BVM in Civil engineering Branch. He conveyed to the students about the quality of knowledge and exposure provided at BVM. He emphasized on acquiring skills and be prepared for team-work and collaborations to the students to succeed in Industry.

**Speech by President of the Event:** Shri Manishbhai Patel, President could not attend the event due to unavoidable circumstances. Dr. S. G. Patel, Honorary Joint Secretary, CVM was invited as a President of the event in his absence. He expressed satisfaction about the preparation and performance of the students of BVM for Project Expo-2019. He explained the importance of interaction with Industry for Innovation and entrepreneurship.

**Vote of Thanks:** Dr. L. B. Zala, Dean, III expressed vote of thanks for participating and attending the event to all the Guests, Industrial Jury members, faculty members, students and organizing team of Project Coordinators, Associate Deans (III) – Prof. A. N. Bhavsar, Dr. R. P. Mehta, and Training and Placement Officers - Prof. Mehul Shah and Prof. Mehul Patel, Anchor Person – Prof. Deepa Sinha, T & P and III Committee members, Student TPC volunteers, Press-Media and all those who have helped directly or indirectly.

**The glimpses of the Inauguration function in LRUC Hall are as follows:**

**The reports of Project Expo for various departments are as follows:**

### **1) CIVIL & STRUCTURAL ENGINEERING DEPARTMENTS**

The Project Poster Presentation was arranged at D-201 for Civil & Structure Engineering Department on 8<sup>th</sup> April, 2019 in which the students of the final year Civil Engineering 8<sup>th</sup> semester had presented their IDP/UDP project work.

There were total 33 groups of Civil & Structural Engineering department.

The poster presentation event started around 10:30 AM after the completion of the inaugural function which was held at BVM Auditorium.

There were 4 jury members, Mr. Chirag Patel (Horizone Consulting Engineers & Valuers , Anand) , Taher Tinwala (EZ Engrs. Pvt. Ltd, Baroda), Shah Jatin (Priti Associates, Consulting Engrs. in Food Industries, Baroda) and Harsh Jani (Sai Consulting Engrs. Pvt. Ltd. , Ahmedabad) (Systra).

*Students group presenting their poster to jury members at D -201*

All the students had presented their posters efficiently in given time slot and each group had defended the questions posed by jury members. Finally the best 3 groups were selected out of all. The winner group's details are as follows:

Sr. No.	Project Group ID	Project Title	Student Name	Id No.	Rank
1	25	Analysis and design of hybrid structures.	Shivam Shah	15CE086	1
			Satish Savani	15CE087	
			Fatema Barodawala	15CE111	
			Kavan Mistry	15CE115	
			Garasiya Savan	16CE303	
2	4	Improvement Techniques to Improve Productivity and	Parmar Rushit J.	15CE091	2
			Bhadaniya Darshan D.	16CE316	
			Prajapati Jay R.	16CE318	

			Patel Manan D.	16CE321	
			Rami Shubham K.	16CE322	
3	9	quality of brickwork at construction sites. Experimental study on improvement of properties of concrete for rigid pavement design.	Shaaqib Mansuri	15CE206	3
			Chandni Patel	16CE301	
			Yash Shah	16CE302	
			Renuka Goswami	16CE306	
			Dipak chavda	15CE024	
4	22	Experimental Study to Understand Seismic Behavior of Structure.	Prince doshi	15CE029	3
			Charmi shah	15CE055	
			Dhruvi shah	15CE066	
			Nisarg shah	15CE075	

The Jury members had really appreciated the efforts of all the students and the project team members for making this event a grand success. Finally the programme ended around 1:30 PM with presenting mementos to the invited jury members followed by lunch.

## 2) Computer Engineering Department

### ○ Profile of Experts

- Isha Bhatt, Sr. Technical Leader @ Einfochip. 13 years of experience in quality assurance & automation of IoT devices and software.
- Dubal Hardik, Director & Cofounder of Timeloop Technologies Private Limited. 10 years of experience in management of game development projects.
- Urmik Shah, Project Manager @ System level Solution Private Limited.

# Project Expo Winners

## **1<sup>st</sup>: VOICE CONTROLLED HOME AUTOMATION**

In recent years, the field of Internet of Things has seen significant investments made by the research

community and the industry. This project presents the design of the low cost voice recognition based

home automation system for everyone and especially for differently abled people to control the various

home appliances just by the voice commands according to their need and comfort. Our focus is on making non-smart homes smart and how to build a robust, cost-effective system that can be widely used. System uses Amazon Echo for recognizing user request. A Raspberry Pi is used as the hardware component for providing smart features for non-smart homes. Objective of developing this model is to create a home automation system which interacts with the user through various voice commands based on concerned parameters which is also eco-friendly.

## **2<sup>nd</sup>: DRIVER BEHAVIOUR ANALYSIS USING COMPUTER VISION**

Car drivers go through many changes in behavior while driving. Traffic might frustrate them or tiredness might make them drowsy. It is imperative that their behavior be analyzed to prevent accidents. The best way to detect a driver's behavior is through his/her face. Since driving can lead to changes in lighting, pose and occlusion of the face, it becomes necessary to develop a model that can accurately detect face, landmarks, and pose in real-time despite these challenges. We develop a multitask learning CNN for this purpose. Our multitask learning CNN predicts 5 things (face/no face, 21 landmark points, visibility of those landmark points, face pose, and gender). This architecture is known as the hyperface architecture. This proves to be more robust to changes in lighting, pose and occlusion when compared to open source available models (like the dlib face detector). Along with accuracy, the basic requirement for a model that is to be used in connected vehicles is that it should work in real-time. Since the vanilla implementation of the hyperface architecture uses Selective search algorithm for region proposals which takes seconds to execute even on GPUs, this makes it a bottleneck. We replace this algorithm with a SSD based face detector to bring down the time into a few milliseconds on CPUs, thus making real-time usage of this model a possibility. The output of this model is fed to the next step in the pipeline which involves using the landmarks developed in this module to detect drowsiness (eye open/close, yawning, distracted) and stress.

### **3<sup>rd</sup>: CAR SEAT PARTS IDENTIFICATION**

We try to develop a Deep Learning powered system for fault-detection & localization in manufactured car-seats for Quality Assurance using multiple-view images taken on the factory floor. Localization must be in terms of seat part and not in terms of image-pixels. Hence, we first be able to accurately crop-out the different parts of a seat viz. Head-rest, Back-rest using appropriate views. Once, these individual parts are segmented out, we train CNN classifiers to determine whether the individual part is faulty. It has been shown that U-Net-like architectures can reach 90+% pixel-by-pixel classification accuracy to differentiate an instance from background. In this project, we try to train a U-Net- like architecture (more generally: an Auto-encoder) to obtain masks corresponding to different parts of a seat at once. After extracting individual seat-parts, we determine whether they are faulty.

- I visited BVM after long time and was also one of the student of BVM engineering college. Projects were presented with new latest technology and also students have shown a great effort towards it.

**- Isha Bhatt**

(Sr. Technical Leader @ Einfochip)

- The projects were innovative and variety of emerging technologies were used. Students were really dedicated towards their project.

**- Dubal Hardik**

(Director & Cofounder of Timeloop Technologies Private Limited)

- Students had in depth knowledge about their specific domains. The projects were developed with proper understanding of usecase and requirements which can be useful to the society.

**-Urmik Shah**

(Project Manager @ System Level Solution Private Limited)

Mr. Urmik Shah being honoured by Dr. N. M. Patel

*1<sup>st</sup> winner of Project Expo*

### **3) Electronics and Communication Department:**

The project poster presentation event organized by the department of Electronics and Communication of BVM engineering college on 08<sup>th</sup> April 2019 at BVM Engineering College. Dr. Bhargav C. Goradiya is the convener of the event and Dr. Darshankumar C. Dalwadi and Prof. Anish A. Vahora is the coordinator of the event. The expert from the various industries judge the project expo event and based on that best 3 posters are selected out of total 26 posters(**18 UDP and 08 IDP, Total 38 Students**). Following students are awarded for prizes and certificates in the project posterpresentation event which is conducted on 08<sup>th</sup> April 2019 at EC department of BVM Engineering College, V. V. Nagar.

<b>SR NO.</b>	<b>GROUP NO.</b>	<b>RANK</b>	<b>TITLE OF THE POSTER</b>	<b>NAME OF THE STUDENTS</b>	<b>ID NO.</b>

#### 4) Electrical Engineering Department

The Project Poster Fair for 8<sup>th</sup> semester students was organized on Monday 8<sup>th</sup> April, 2019 in Electrical Engineering Department as a part of INDUSTRY INSTITUE INTERACTION CELL activity for IDP/UDP projects.

The Students of 8<sup>th</sup> semester prepared and displayed the posters of their final year project work. The working Models of the projects were demonstrated in working condition of majority of the projects undertaken by the students. Two Experts from Industry were invited as Industrial Expert for Evaluation of the projects. The details of the experts are as below:

- 1 Er. Tarang Thakkar Director, Ohm Encon PVT Ltd, Vadodara.
- 2 Er. Ambrish Gandhi, Validation Leader. M V , R & D , Schneider Electric Ltd, Vadodara-Halol

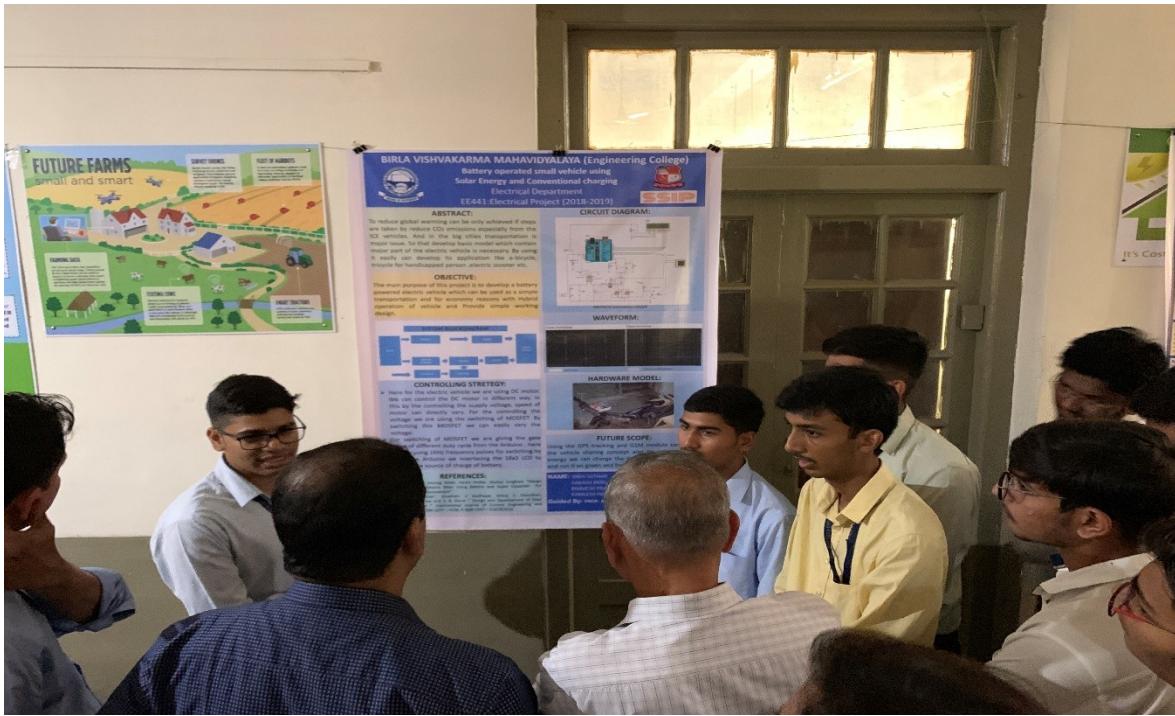

Highway, Vadodara.

Twenty-one(21) projects(20 UDP and 1 IDP) were presented by the 78 students in front of the Industrial Experts and Departmental Expert Ajay Patel. Based on the Evaluation of the Experts the best three projects were selected for awarding first second and third price and appreciation.

The selected projects are:

Position Secured	Group No.	IDP/UDP Title	Name of the students in the Group	Enrollment No.
First	19	GSM Based Solar Power Measurements and Monitoring with Sun tracking Solar Panel	Deep Vaghasiya	15EE008
			Nikesh Prajapati	15EE203
			Dharmik Pansuriya	16EE312
			Kalpesh Rathod	16EE313
Second	21	Development of Industrial Training modules in power system and VFTOs in GIS : Causes and Mitigation	Divya J Bhatt	15EE041
Third	12	Software and Hardware Implementation of Distance Protection	Pankaj P savani	15EE013
			Aditya N Danayak	15EE039
			Mitul R Munjani	15EE053
			Khushbu P Chandarana	15EE055

The best three projects selected will be awarded price. After the completion of the Project Expo, one of the Expert joined for the ICC meet in the post lunch session.

## 5) Electronics Engineering Department

The project expo event organized by the department of Electronics engineering of BVM engineering college on 8<sup>th</sup> April 2019 at the BVM Engineering College. Dr. T D Pawar is the convener of the event and Dr D L Vala is the coordinator of the event. The expert from the various industries judges the poster event and based on that best 3 projects are selected out of the total 34 projects. following students are selected best three projects in the project expo event.

Sr. No.	Project Group ID	Project Title	Student Name	Enrollment No.	Rank
1	26	Wearable Smart Jacket (Sixth Sense)	Arth Shah	15E1045	1
			Chirag Thakar	15E1051	
			Mudit Batra	15E1073	
2	24	Voice Integration in Home	Akash Patel	15EL068	2
			Jay Vora	15EL075	

3	6	Automation Aphonic gesture translator	Gaurav Gautam	15EL064	3
			Shivani Singh	15EL048	

### **DETAILS OF JURY MEMBERS**

<b>Sr. No.</b>	<b>NAME OF JURY</b>	<b>DESIGNATION</b>	<b>NAME OF COMPANY/INSTITUTE</b>
1.	Mr. Bhaskar Trivedi	Sr. Diorector	PerfectVip , Ahmedabad
2.	Mr. Hiral Patadiya	Project Manager	SLS,New Vallabh Vidyanagar

## 6) Information Technology Department:

The Project Expo-2019 event organized by the department of Information Technology of BVM engineering college on 8<sup>th</sup> April 2019 at BVM Engineering College. Dr.Zankhana Shah and Prof.Chintan Mahant were coordinators of the event. The expert from the various industries judge the event and based on that best 3 posters were selected out of total 29 posters (**14 Minor Projects +15 Major Projects= Total 29 Groups (70 Students)**).

Following students were awarded for prizes and certificates in the Project Expo-2019 event which was conducted on 8<sup>th</sup> April 2019 at IT department of BVM Engineering College, V. V. Nagar.

### **8) Production Engineering Department:**

Industry Institute Interaction cell, BVM Engineering College with the support of all the faculty members and students of the College, have organized a PROJECT EXPO-2019 on April 8, 2019. The purpose of this event is to showcase the projects of all the Final Year B.Tech. students of all the disciplines of the Institute. The total of fifty five students of final Year B.Tech. students of Production Engineering Department had participated in the PROJECT EXPO-2019 as a part of INDUSTRY INSTITUE INTERACTION CELL activity and they showcased their 19 industry defined projects in the form of posters. This activity was coordinated by Dr Hardik Beravala under the guidance of Dr. Amit Trivedi. ErJayanta Mukhopadhyay, Vice President & Head R & D, Gear Division, Elecon Engg. Co. Ltd. and ErAmrut Patel, Technical Director, Steelfur Systems P. Ltd., Vadodara were appointed as jury members. Among them 3 projects were selected as best projects. The details of best three projects are mentioned below.

#### **Poster Presentation Result Summary**

<b>SR. NO</b>	<b>ID NO.</b>	<b>NAME</b>	<b>FACULTY GUIDE</b>	<b>NAME OF PROJECT</b>
<b>1<sup>st</sup> PRIZE</b>	16PE303	CHAVDA CHINTAN A.	DR. HARDIK BERAVALA	DESIGN OPTIMIZATION OF CAST-IRON BENCH CENTER USING THE FINITE ELEMENT ANALYSIS TECHNIQUE
	16PE310	SONI HARSHIL H.		
	16PE309	JASOLIYA MANTHON S.		
<b>2<sup>nd</sup> PRIZE</b>	15PE530	SHAIKH MOHAMMADVASI A.	PROF. DHRUVESH GAJJAR	MINIMIZATION OF INTERNAL GEARBOX NOISE OF S2-17-HN-1A-00-0100-LR
	15PE519	BRAHMBHATT ANUJ A.		
<b>3<sup>rd</sup> PRIZE</b>	15PE004	PATEL VATSAL K.	DR. AMIT TRIVEDI	DETERMINATION OF OPTIMUM GRINDING ALLOWANCE IN GEARS FOR DIMENSIONAL VARIATION DURING HEAT TREATMENT
	15PE512	PATEL KRUTAGNA R.		
	15PE501	AKASH PATEL K.

## ○ Experts

- Raj Kothari, Carrier Coach
- Shreyansh Bhavsar, Collabera
- Dr. Varang Acharya, Sannibh Technology
- Nirmit Patel, Senior Tech, Infochip
- Mr. Suthar, Q&A Head Infochip

All the fourth-year students of the BVM engineering college were gathered in the auditorium on 30<sup>th</sup> March for ‘Project Expo – 2017’. Then after lighting the lamp ceremony by our honorable chief guests. After that a small speech by our chief guests on significant of project expo.

- Memorable information:
  - Meet the unspoken needs by going the extra mile to discover what your client really wants but is afraid to ask for
  - When you think, you’re done, let it sit on the shelf for a day. Then go back and make it even better.
  - Don’t ask whether your client will like what you’ve done; ask yourself if *you* would purchase the product based on the advertising you’ve provided

## Project Expo Winners

### **1<sup>st</sup>: STUDENT ACTIVITY ANALYZER**

Student Activity Analyzer is an android application which will be used for day to day life, user first have to input their data as required in the application and it will present that data in an interesting manner. The data will be saved in our data base with the help of AWS (Amazon Web Services) and application will generate graphs for the better understanding. We will also provide the analysis of the data, which can be useful for the college and student to improve their performance better. Last module is the location tracking module which is for the college side only to track the location of the students, which can be used for auto attendance also. With the help of the location module we’ll generate graphs to see how many students are present in the call out of total. The data will be anonymous so we’ll not show any particular student data either we will show the total numbers.

### **2<sup>nd</sup>: HARAKA MAIL SERVER WITH AWS MICROSERVICE**

Containerization of microservices to reduce the development as well as deployment time of microservices. HARAKA an Smtip mail server having Plugin architecture written in Node.js framework interacts with Ldap (Lightweight Directory Access Protocol) to authenticate its users.

which are entered as a part of Administrative User interface programmed in Java using JSP. We have used Docker as a containerization technology.

## **3<sup>rd</sup>: SMART FARM**

Agriculture is mankind's oldest and still its most important economic activity, providing the food, feed, fiber, and fuel necessary for our survival. Plus, automation can play a significant role in increasing efficiency and reducing cost. On the other hand, one must know that India is the only country to use its 90% of fresh water for agriculture activities. So, based on these three facts, main motive of **Smart Farm** is to address the issue of farmers in agriculture activities by automating the irrigation process based on the environmental conditions like moisture, temperature, and light, and helping government body to gauge water usage by providing analysis of water usage. Thus, we can say Smart Farm is an IoT-based Irrigation Automation System.

- Never underestimate yourself, you will find the way to explore your interest in the field and perform the best.

**- Raj Kothari**  
(Carrier Coach)

- Always be updated with the new technologies while working on the project, it will help very much.

**- Shreyansh Bhavsar**  
(Collabera)

- Don't disappoint if your project difficult to complete, try that way which you were ignoring may it can help you in an effective manner.

**-Nirmit Patel**  
(Senior Tech, Infochip)

REPORT ON PROJECT 2016 E.POSTER FAIR ON 20.10.2016 AT BVM

Birla Vishvakarma Mahavidyalaya(Engineering College) established in June, 1948, 1<sup>st</sup> Engineering College in rural area in Gujarat State managed by Charutar Vidya Mandal. Number of engineering graduates passed out and settled in India and abroad and some become Entrepreneurs. At present Civil, Computer, Electrical, Electronics, mechanical, Production, Information Technology and Electronics Communication branch students receiving engineering education. BVM Engineering College had introduced project fair and expo for all Final Year engineering students first of its kind at Gujarat Technological University, Gandhinagar. On 20<sup>th</sup> October, 2016 at BVM Engineering College for all Final year students of 7<sup>th</sup> Semester project e.poster fair event was organized under the joint auspicious of industry institute interaction Cell & Innovation Sankul, TEQIP-II and BVM Alumni Association. In inauguration programme president Er.Jagdishbhai I Patel, Er. D.C.Patel (Shree Ram Builders, Vallabh Vidyanagar), industrial experts are invited. Shri Pareshbhai Shah from Vallabh Alloy Steel Casting, GIDC, VithalUdyognagar have attended the event.

In Civil Dept. Mr.P.S.Chami (GERI, Vadodara)(Structure Consulting Engineers), Mr.TaherTinwala, Mr.Nitesh Patel, Project Management Consultants, Mr.R.N.Yadav(GNFC, Bharuch)

In Computer Dept.. Dr. Varang Acharya, GM Savya 1 Tech. Ahmedabad, Mr. Japan Sevak, Executive Software Dept., Tech. Elecon Vallabh Vidyanagar Mr. raj Kothari, Co-founder Fareerkhoj Ahmedabad.

In Electrical : Mr.J.D.Khumbani,Sr. Manager, Pioneer Furnace VithalUdyognagar, Mr.Mayanak Patel, Asst.Manager, Amul Dairy, Mr.J.N.Chandegra, Dy. Engineer, GETCO, Mr.J.N.Patel, DGM EleconEngg. Co.

In Electronics:Mr.Shah Anand, Proprietor Ray Innovation, PreraPaliwal, Tech. Engg. Pana Max Infotech, Mr.Falgun Thakkar, Asst.Professor, GECT

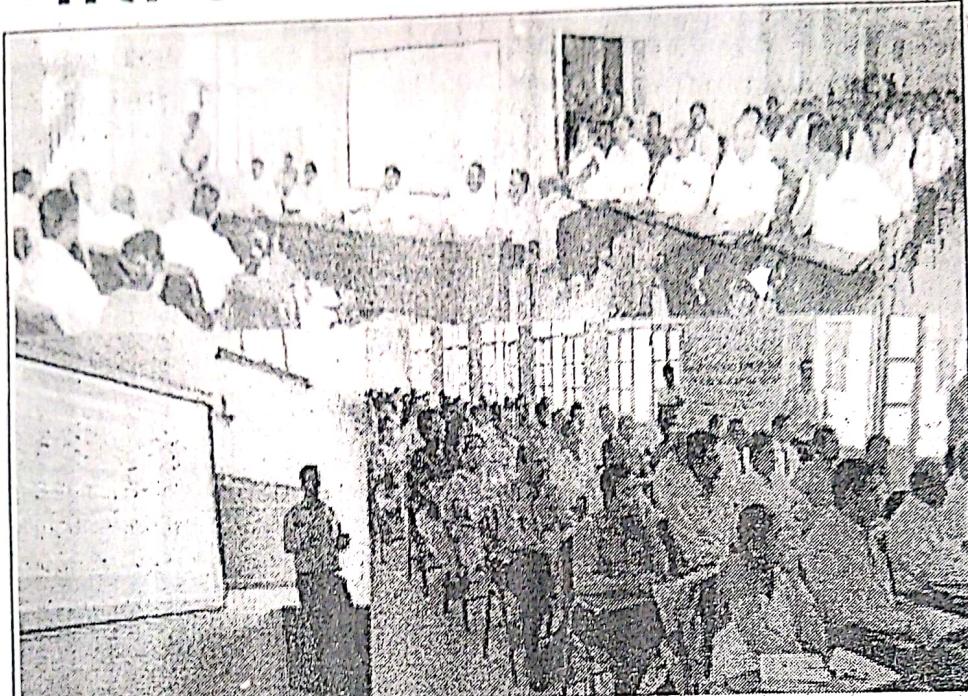

In Mechanical: Mr.Nimesh Pandya, R&D Elecon Engg. Co., Mr. Vraj Sen Jaliya, In Electronics & Communication, Mr. Nilesh Jambucha, Mr. Krunal Patel, SLS Vithal DGM, Gear Division, Elecon, Mr.Patel Vishalkumar Rameshchandra, R&D Eimco DGM, Gear Division, Elecon, Mr.Patel Vishalkumar Rameshchandra, R&D Eimco DGM, Gear Division, Elecon, Mr.HitendraSinh Maysinh Dabhi, Sr. Technical Executive R&D, Mr. Elecon Engg. # બી.વી.એમ. એન્જિ. કોલેજ ખાતે ઈ-પોસ્ટર પ્રોજેક્ટનેશન

ચારુતર વિદ્યામંડળ સંચાલિત બી.વી.એમ. કોલેજ ખાતે ઈ-પોસ્ટર પ્રોજેક્ટનેશન કાર્યક્રમ યોજાયો. જે પ્રસંગે સ્વાગત પ્રવચન કરતા કોલેજના આચાર્ય ડૉ. ઈન્ડ્રાજીત પટેલ, જગદીશભાઈ પટેલ (પ્રમુખ વિ. યુ. નગર), ડૉ. રી. પટેલ, પ્રો. એલ. બી. જાલા તથા ઉપસ્થિત મહાનુભાવો.

(તસવીર : સલીમ-મમતા સ્ટુડિયો, વિઘાનગર)

અણંદ, તા. ૨૩  
ચારુતર વિદ્યામંડળ સંચાલિત  
બિરસાં વિશ્વક્રમા મહાવિદ્યાલય  
ખાતે ઈન્ડસ્ટ્રી ઇન્સ્ટીટ્યુટ  
ઇન્સ્ટ્રેક્શનના ભાગરે ઈ-  
પોસ્ટર પ્રોજેક્ટનેશન યોજાયું.

જેમાં બી.વી.એમ.  
કોલેજની ટ્રાન્ચમાંથી  
૧૮૫ ગ્રોઉફ્ટ રણ્ણ થયા જેનું  
મૂહ્યાંકન ઈન્ડસ્ટ્રીજના ૨૪  
અલગ અલગ એક્સપર્ટ્સ દ્વારા  
થયું ઈવેન્ટના શુભારંભ પ્રસંગે  
સંસ્થાના પ્રિન્સીપાલ ડૉ.  
ઈન્ડ્રાજીત પટેલ સંસ્થાની  
ઓટોનોમી અને ઈતર પ્રવૃત્તિમાં  
સિદ્ધિઓ વિશે શોને માહિતગાર  
કર્ચ. પ્રો. એલ. બી. જાલા, (ડીન  
ગાઈઆઈઆઈ સેલ)એ

આઈઆઈઆઈ સેલની  
ઉપોગીતા અને આઈડીપી/  
પુડીપી વિશે જ્યાલ આઓ.

આ પ્રસંગે જગદીશભાઈ  
પટેલ (પ્રેસિન્ટ, વી. યુ. નગર  
ઇન્ડસ્ટ્રી ઓસોરીએશન),  
એન્જિનિયર ડૉ. રી. પટેલ  
(શ્રીરામ બિલ્ડર્સ) મુજ્ય અતિથિ  
તરફિ દાજી રહ્યા હતા.

અતે ઉદ્ઘેખનીય છે કે  
સંસ્થાના ઈ.રી. અને  
ઇલેક્ટ્રોનીકસ ડિપાર્ટમેન્ટમાંથી  
ઈ-રોબોટ, આઈ.આ.ટી.  
ઈરીગેશન, આઈ.આ.ટી. પાર્કિંગ  
સીસ્ટમ, ઇલેક્ટ્રોિકલ  
ડિપાર્ટમેન્ટમાંથી પી.એલ.સી.,  
એનજી કાર્યક્રમતા, મિકેનીકલ  
અને ગ્રોડ્શન ડિપાર્ટમેન્ટમાંથી

ડિઝાઇન, મેન્પુફેક્ચરિંગ,  
કાર્સ્ટિંગ વેલ્ડિંગ, થમલ, સીવીલ  
ડિપાર્ટમેન્ટમાંથી એનજી કાર્યક્રમ  
બિલ્ડર્સ, પબ્લિક ટ્રાન્સપોર્ટ  
સિસ્ટમ, ડોમ્પુટર  
ડિપાર્ટમેન્ટમાંથી સ્માર્ટ શાર્મ,  
મશીન લન્નિંગની થીમ પર  
અલગ અલગ પ્રોજેક્ટ્સ રજૂ  
થયાં હતા.

ઇવેન્ટની આભાર વિધિ પ્રો.  
જે. ઓન. જૈન (એસોસીએટ  
ડીન, આઈ આઈ આઈ સેલ)  
એ કરી હતી.

આ ઇવેન્ટની સંખણતા માટે  
ચારુતર વિદ્યામંડળના અધ્યક્ષ ડૉ.  
સી. એલ. પટેલ અને અન્ય  
દોદારોઓ શુભાશિષ પાઠવ્યા  
દ્વારા હતા.

October 17, 2016

**INDUSTRY INSTITUTE INTERACTION CELL**

Cordially invites all the faculty members, Industry guests and all students of B.E. Final Year at BVM Engineering College to attend the inauguration programme of project e.poster evaluation of B.E. VII Semester.

On 20<sup>th</sup> October, 2016 *Thursday* at 9.00 am to 10.00 am at BVM Auditorium

Er. Shri Jagadishbhai Patel, President, VUIA  
Co-chairman, GTU Innovation Sankul, Vallabh Vidyanagar Zone-II  
&

Er. D.C.Patel (Shri Ram Builders) have kindly consented to be the Chief Guest of the function.

*Jain*  
(Prof. J.N.Jain)  
Asso.Dean

*Zala*  
(Dr. L.B.Zala)  
Dean

*Patel*  
(Dr. I.N.Patel)  
I/c.PRINCIPAL

III Cell, BVM

PROGRAMME		
1	9.00 am to 9.30 am	Get together : Refreshment Meeting with Chief Guest, Industry experts with III Cell members and faculty
2	9.30 am to 10.15 am	Inauguration at BVM Library (Conf 522)
3	10.15 am to 1.15 pm	<b>Session 1:</b> Evaluation of Project e- posters(virtual) at each respective department by industry experts and faculty at the departmental level
4	1.15 pm to 2.00 pm	Lunch break Lunch for experts, project Coordinators, HoDs & III cell members
5	2.15 pm onwards	<b>Session 2:</b> Evaluation of projects, result declaration and concluding remarks at each department

Some of the common areas of partnership and collaboration:

- Arranging lecturers/Workshops with experts from industry
- Sharing of subjects at B.E. Level
- Students' projects
- Consultancy projects
- Faculty participation/visits/training in the industry
- Industrial visits of students
- Students training/internship

BVM ENGINEERING COLLEGE

(An Autonomous Institution)

Managed by CVM

E-Poster Presentation

E-Poster Presentation was held in BVM engineering college on 20<sup>th</sup> October 2016 and continued for whole day. The final year students of eight different departments namely Civil, Mechanical, Production, Electronics, Computer, Electrical, Electronics & Telecommunication and Information Technology presented their project work as E-Poster. Inauguration of E-poster Presentation was held at morning 10 a.m. at library conference hall. Inauguration speech was given by Dr. I. N. Patel (Principal of college), Dr. L. B. Zala (Head Civil Engineering), Engineer industrialist Jagdishbhai Patel (President of Vitthal Udyog Industrial Association) and Engineer D C Patel (shree Ram Builders, Vallabh Vidyanagar). There were 185 projects from eight different departments which were evaluated by 24 experts from various industries. Expert opinion was that the projects are good, innovative and useful to society and industries to overcome real life problems.
